EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Joseph H. McGlynn on October 20, 2004.

2. The application has been amended as follows:

In claim 22, last two lines, "wherein said front section and said middle section each have fins attached thereto" has been amended as follows:

-wherein said front section has a steering fin attached thereto and said middle section has a stabilizing fin attached thereto-.

3. The following is an examiner's statement of reasons for allowance:

Claim 21 and the claims depending therefrom are allowed because neither Volf, Jr. nor Neill taken alone or in combination teach or fairly suggest the front section, the middle section and the back section of the watercraft claimed in claim 21 forming a J shape.

During the above referenced interview it was pointed out that applicant's arguments why claim 22 was allowable filed October 13, 2004 were not persuasive because neither the claimed front section nor the claimed middle section each have fins attached thereto as argued by applicant. The front section has fin 34 attached thereto and the middle section has fin 44 attached thereto. It was pointed out that claiming that the front section and the middle section each have fins attached thereto lead the examiner to conclude that the fins attached to each section were fins 34 and 44 of applicant's invention. Thus, it was felt that fins 36 of Volf, Jr. could in the same sense be the fins attached to each of the front section and the middle section. During the interview it was agreed to amend claim 22 to define the front section as having a steering fin attached thereto and the middle section as having a stabilizing fin attached thereto. The combination of Volf, Jr. and Neill as set forth in the first office action does not suggest or fairly teach the limitation of the front section having a steering fin attached thereto and the middle section having a stabilizing fin attached thereto.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sherman D. Basinger whose telephone number is 703-308-1139. The examiner can normally be reached on M-F (6:00-2:30 ET).
